- Free advertising & updates of neuroscience **internships, PhD places, jobs & opportunities**
- Meet **leading international neuroscientists**
- **Networking events** to meet potential employers
- *..and much more!*

The BNA has been supporting neuroscience and neuroscientists for over 50 years, ensuring that the UK has the strong base of basic discovery neuroscience which is critical for developing treatments for disorders such as motor neuron disease, dementia, pain, mental health disorders, stroke, autism and epilepsy.

**We welcome everyone interested in the brain and nervous system to join us.**

We have a membership level for everyone: A-Level students to professors to people who may not work professionally in neuroscience but are fascinated by the brain.

Visit [bna.org.uk](http://bna.org.uk) to find out more about what BNA membership can offer you...
